Payment during illness will be subject to the officer making the necessary claims for social insurance benefit to the Department of Social Protection within the required time limits.

Superannuation and Retirement:

The successful candidate will be offered the appropriate superannuation terms and conditions as prevailing in the SFPA at the time of being offered an appointment. In general, and except for candidates who have worked in a pensionable (non-single scheme terms) public service job in the 26 weeks prior to appointment (see paragraph d below), this means being offered appointment based on membership of the Single Public Service Pension Scheme ("Single Scheme").

Key provisions attaching to membership of the Single Scheme are as follows:

Pensionable Age

The minimum age at which pension is payable is 66 (rising to 67 and 68) in line with State Pension age changes.

Retirement Age

Scheme members must retire at the age of 70.

Pension Abatement

If the appointee was previously employed in the Civil Service and is in receipt of a pension from the Civil Service normal abatement rules will apply. However, if the appointee was previously employed in the Civil Service and awarded a pension under voluntary early retirement arrangements (other than the Incentivised Scheme of Early Retirement (ISER) or the Department of Health Circular 7/2010 VER/VRS which, as indicated above, renders a person ineligible for the competition) the entitlement to that pension will cease with effect from the date of reappointment. Special arrangements will, however be made for the reckoning of previous service given by the appointee for the purpose of any future superannuation award for which the appointee may be eligible.

Other Benefits of working for SFPA (CONTINUED)

If the appointee was previously employed in the Civil Service or in the Public Service please note that the Public Service Pensions (Single Scheme and Other Provisions) Act 2012 includes a provision which extends abatement of pension for all Civil and Public Servants who are re-employed where a Public Service pension is in payment. This provision to apply abatement across the wider public service came into effect on 1 November 2012. This may have pension implications for any person appointed to this position that is currently in receipt of a Civil or Public Service pension or has a preserved Civil or Public Service pension which will come into payment during his/her employment in this position.

Department of Education and Skills Early Retirement Scheme for Teachers Circular 102/2007

The Department of Education and Skills introduced an Early Retirement Scheme for Teachers. It is a condition of the Early Retirement Scheme that with the exception of the situations set out in paragraphs 10.2 and 10.3 of the relevant circular documentation, and with those exceptions only, if a teacher accepts early retirement under Strands 1, 2 or 3 of this scheme and is subsequently employed in any capacity in any area of the public sector, payment of pension to that person under the scheme **will immediately cease**. Pension payments will, however, be resumed on the ceasing of such employment or on the person's 60th birthday, whichever is the later, but on resumption, the pension will be based on the person's actual reckonable service as a teacher (i.e. the added years previously granted will not be taken into account in the calculation of the pension payment).

Ill-Health Retirement

Please note that where an individual has retired from a Civil/Public Service body on the grounds of ill-health his/her pension from that employment may be subject to review in accordance with the rules of ill-health retirement within the pension scheme of that employment.

Prior Public Servants

While the default pension terms, as set out in the preceding paragraphs, consist of Single Scheme membership, this may not apply to certain appointees. Full details of the conditions governing whether or not a public servant is a Single Scheme member are given in the Public Service Pensions (Single Scheme and other Provisions) Act 2012. However, the key exception case (in the context of this competition and generally) is that a successful candidate who has worked in a pensionable (non-single scheme terms) capacity in the public service within 26 weeks of taking up appointment, would in general not become a member of the Single Scheme. In this case such a candidate would instead be offered membership of the pension scheme for non-established civil servants ("Non-Established State Employee Scheme"). This would mean that the abatement provisions at (c) above would apply, and in addition there are implications in respect of pension accrual as outlined below:

Pension Accrual

A 40-year limit on total service that can be counted towards pension where a person has been a member of more than one existing public service pension scheme would apply. This 40-year limit, which is provided for in the Public Service Pensions (Single Scheme and other Provisions) Act 2012 came into effect on 28 July 2012. This may have implications for any appointee who has acquired pension rights in a previous public service employment.

Pension-Related Deduction

This appointment is subject to the pension-related deduction in accordance with the Financial Emergency Measure in the Public Interest Act 2009.

The above represents the principal conditions of service and is not intended to be the comprehensive list of all terms and conditions of employment which will be set out in the employment contract to be agreed with the successful candidate.

- Shortlisting of candidates based on the information contained in their application form

Even if you meet the eligibility criteria for the role, if the number of applicants is too high to interview everyone, Conscia Talent may choose to invite only a select group for interviews.

To address this, Conscia Talent employs a short-listing process to identify candidates for interviews. This process involves an expert panel reviewing application forms against pre-established criteria based on the job requirements. It's important to note that this does not imply that other candidates are unqualified or incapable; rather, some may simply appear more qualified or have more relevant experience based on their applications. Therefore, it is in your best interest to provide a comprehensive and accurate overview of your qualifications and experience on the application form.

Application Process (CONTINUED)

Confidentiality:

Subject to the provisions of the Freedom of Information Act 2014 applications will be treated in strictest confidence.

Security Clearance:

Garda vetting may be sought in respect of individuals who come under consideration for appointment. The applicant will be required to complete and return a Garda Vetting form should they come under consideration for appointment. This form will be forwarded to An Garda Síochána for security checks on all Irish and Northern Irish addresses at which they resided. If unsuccessful this information will be destroyed by the SFPA. If the applicant subsequently comes under consideration for another position, they will be required to supply this information again.

Other Important Information:

Conscia Talent will not be responsible for reimbursing any expenses incurred by candidates.

The acceptance of an individual into a competition, an invitation for an interview, or a notification of a successful outcome does not imply that Conscia Talent is satisfied that the individual meets the necessary qualifications or is legally eligible for the position. Furthermore, it does not guarantee that your application will be considered further.

Therefore, it is crucial for you to understand that it is your responsibility to ensure you meet the eligibility criteria for the competition prior to attending the interview. If you attend without fulfilling these essential requirements, you may incur unnecessary expenses

Before recommending any candidate for this position, Conscia Talent will conduct all necessary enquiries to assess the candidate's suitability. A final decision cannot be reached, nor can it be assumed or implied that such a decision has been made, until all phases of the recruitment process are fully completed.

If the recommended candidate declines the position, or if they accept and then withdraw, or if another vacancy occurs, the Board may, at its discretion, select and recommend an alternative candidate based on the outcomes of this selection process.

Candidates' Rights - Review Procedures in relation to the Selection Process:

Conscia Talent will consider requests for review in accordance with the provisions of the codes of practice published by the CPSA. The Codes of Practice are available on the website of the Commission for Public Service Appointments <http://www.cpsa.ie/>.

If a candidate is dissatisfied with any action or decision regarding their application, they can request feedback from Conscia Talent, when the selection process is managed by Conscia Talent. An initial internal review will be conducted by the candidate's recruitment contact to understand the reasons behind the unsuccessful application. The results of this review will be communicated to the candidate in writing.

To request an initial review, a candidate must write to Conscia within 5 working days of receiving notification of the decision on their application. Conscia will carry out the initial review without delay. If the candidate is dissatisfied with the outcome, they may resort to the formal procedures within 5 working days of receiving notifications of the outcome of the initial review.

Should the candidate not be satisfied with the outcome of the initial review, it will be referred to a Director who acts as the decision arbitrator.
